## A New Era for Retail

---

The arrival of the Internet of Things (IoT) and resulting paradigm shift has generated many new business opportunities related to smart city and Industry 4.0 technologies. With “Enabling an Intelligent Planet” as its core mission, Advantech, a global leader of the embedded systems market, divided its business into vertical markets in order to accelerate IoT development. Accordingly, Advantech’s Service IoT Division has begun cultivating smart city solutions for the following three main domains: intelligent retail and hospitality, digital healthcare, and digital logistics and fleet management.

The retail industry has reached a crucial point in its transformation, where big data analysis, enhancement of the customer experience, and online shopping have become key areas for innovation. Advantech’s iRetail solutions are aimed at vertical markets, such as chain stores, food and beverage businesses, supermarkets/hypermarkets, and shopping malls. Advantech is dedicated to developing the most effective retail applications for IoT-related applications and cloud-based services. With cloud-based retail service platforms as a core focus, Advantech has developed several solutions that target shopper engagement, cashier management, operational support, and business intelligence.

For retailers, Advantech’s one-stop retail technology integration service can not only optimize retail operations, but also improve the customer experience while also providing competitive advantages. According to the company’s culture of “altruism”, Advantech’s iRetail team provides assistance to retailers hoping to break into omni-channel retailing. As a leading provider of intelligent retail solutions, Advantech remains committed to not only improving customer satisfaction, but also enhancing the efficiency of retail operations.

### Business Insights

Analysis of store data enables retailers to optimize sales strategies and daily operations.

### Cloud-Based Monitoring

By monitoring the operating performance of a single or multiple stores, managers can identify key areas for improvement and development.

## Store Management

By collecting cross-store performance data, management can set performance benchmarks to enhance overall productivity.

## One-Stop Service

Comprehensive solutions that include intelligent IT architecture, project management, product training, after-sales support, and RMA services are provided.

## Platform Integration

Advantech's UShop+ cloud platform provides an open API for multi-solution integration, enabling retailers to efficiently optimize store management.

# UShop+ Architecture

Avantech UShop+ is a Solution as a Service (SaaS) cloud platform developed for retailers. This platform simplifies the targeting, engagement, and retention of high-value customers with the provision of various solution-ready platforms (SRP) aimed at in-store marketing, store analytics, and store management. The UShop+ cloud platform provides an open RESTful API for multi-solution integration, allowing retailers to more efficiently optimize store management.

# Interactive Digital Signage

Advantech's UShop SRP-130 interactive digital signage solution not only delivers dynamic and immersive multimedia content, but also increases customer engagement by broadcasting content specifically targeted to the customer. Using a variety of IoT sensors, including facial detection cameras, RFID readers, and in-store heatmaps, UShop SRP-130 adds interactivity to a digital signage network, opening up a whole new world of possibilities for both retailers and consumers.

## UShop SRP-130

### USER BENEFITS

Use Precision Marketing to Attract Target Customers

Numerous Flexible and Customizable Scenarios

Enhance Customer Engagement with Relevant Marketing

Reduce Labor Costs via Centralized Management

## SOFTWARE FEATURES

### UShop+ Signage CMS

#### Interactive Content Creator for Signage Applications

UShop+ SignageCMS is a web-based content management system designed to deliver high-resolution multimedia in diverse formats to UShop+ signage players. The system allows users to layout, schedule, and dispatch signage contents over the Internet to up to 500 remote display clients.

The software includes RESTful APIs that enable users to access and control applications from the server and to integrate various interactive devices, such as an RFID reader, beacon, or facial recognition system.

Supports Offline Playback via USB

Interactive APIs for Easy Integration

Remote Centralized Management

## SYSTEM ARCHITECTURE

# Intelligent eMenu Board

Advantech's intelligent eMenu board allows business owners to easily promote services and products via real-time advertisements. Managers can remotely edit and dispatch content to the eMenu board system, which then disseminates the content to multiple client devices (across stores). The eMenu board system can be integrated with a restaurant's POS data to allow customers to make last-minute order updates using the POS system or mobile app, thereby increasing customer satisfaction.

## UShop SRP-131

### USER BENEFITS

Remote Management and Synchronized Updates

Professional, Easy-to-Use eMenu Templates and Typesetting

Interactive Menu Content Enhances the Dining Experience

Increase Sales with Efficient Precision Marketing

## SOFTWARE FEATURES

### UShop+ Signage CMS

#### Cloud-Based Design Software for eMenu Boards

UShop+ SignageCMS is a web-based content management system capable of delivering high-resolution multimedia to UShop+ signage players, while also providing diverse menu templates for easy editing and real-time broadcasts.

The software can be integrated with a store's mobile POS app, allowing business owners to update the menu or promotions via the POS system or mobile app.

"WYSIWYG" User Interface

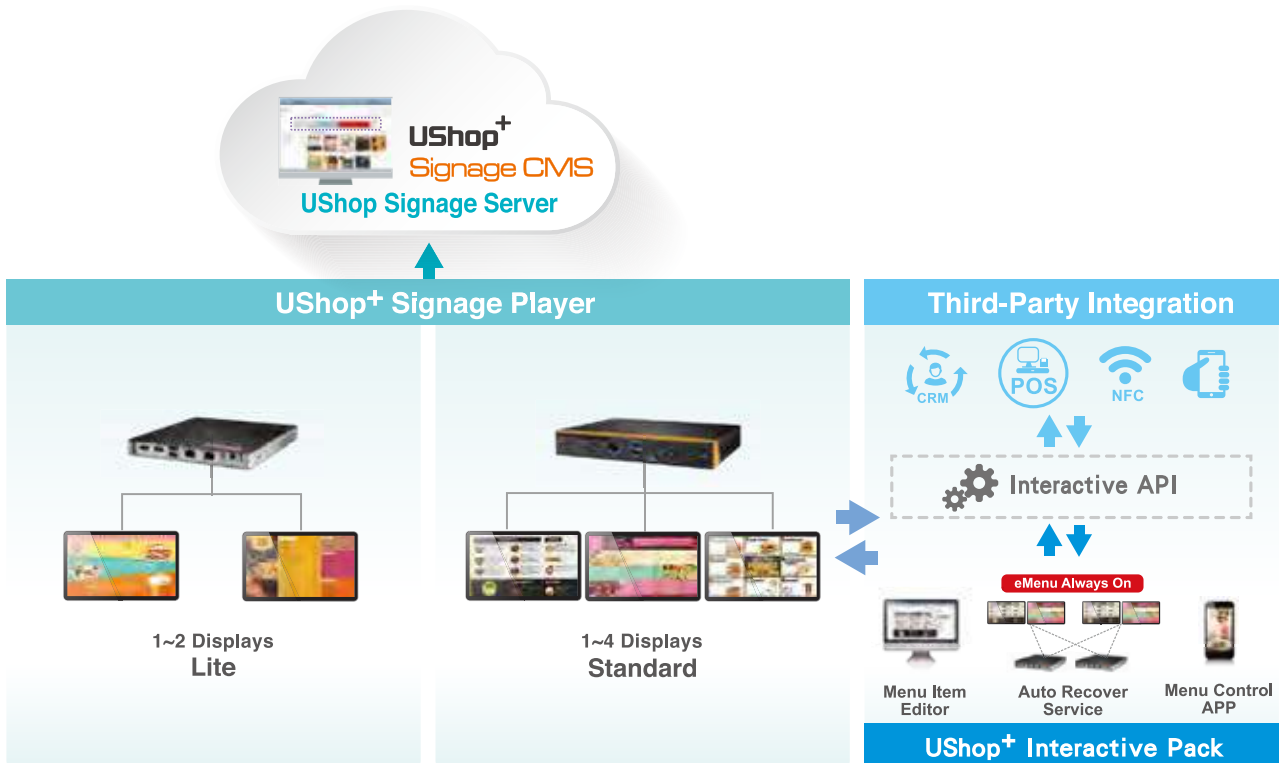

Schedule and Dispatch Content

Remote Device Management

## SYSTEM ARCHITECTURE

# Store Traffic Analytics

For retailers, sales revenue is always a key performance metric; however, in-depth analysis of poor sales performances is rare. Advantech's UShop SRP-700 store traffic analytics solution enables retailers to evaluate sales potential and establish customer service and marketing strategies for maximizing profit. UShop SRP-700 integrates 2D and 3D video analysis technology with POS transaction data for business insights. Analysis of customer traffic data provides retailers with an in-depth knowledge of consumer shopping and purchasing habits, as well as insights into sales performance during periods of high/low traffic for each store.

## UShop SRP-700

### USER BENEFITS

Guaranteed Accuracy for High-Traffic Volumes

Integrate POS Data with People Counting Technology

Manage Multiple Stores Using a Single Device

Optimize Staff Allocation and Efficiency

# UShop+ Store BI

## Understand Business Trends at a Glance

UShop+ Store BI software provides retailers with data analytics and actionable insights by integrating several in-store data visualization solutions, including store traffic and heatmap analysis, to enhance retail management. The software allows retailers to easily filter and group data, create custom dashboards, and understand trends at a glance via charts and graphs. By enabling comprehensive data visualization, UShop+ Store BI allows business owners to explore data and identify patterns in order to optimize operations.

KPI Overview and Store Ranking

Multi-Data Analysis

UShop+ Mobile Manager App

## SYSTEM ARCHITECTURE

# Store Heatmap Analysis

In the past, retail personnel had to guess where the high-traffic areas were and adjust the in-store product displays and advertisements. However, without actual data, the advertising and promotional efficiency could not be maximized. Advantech's store heatmap analysis uses image technology combined with POS transaction data as well as big data analysis to provide comprehensive, in-depth analysis of consumer behavior. With heatmap analysis, retail personnel can identify where customers are gathering to optimize product displays and adjust pricing strategies for more effective marketing.

## UShop SRP-710

### USER BENEFITS

Real-World Scene Analysis

Cross-Store Analysis

Store Layout Optimization

Improved Marketing and Promotions

## SOFTWARE FEATURES

### UShop+ Store BI

#### Obtain Business Insights at a Glance

UShop+ Store BI software provides retailers with data analytics and actionable insights by integrating several in-store data visualization solutions, including store traffic and heatmap analysis, to enhance retail management.

The software also features several statistics widgets for visualizing data, such as the number of store visitors, sales conversion rates, customer heatmaps, and dwell time. Retailers can even pin or create user-defined widgets in cross-region or cross-period reports.

Regional Heatmap Overview

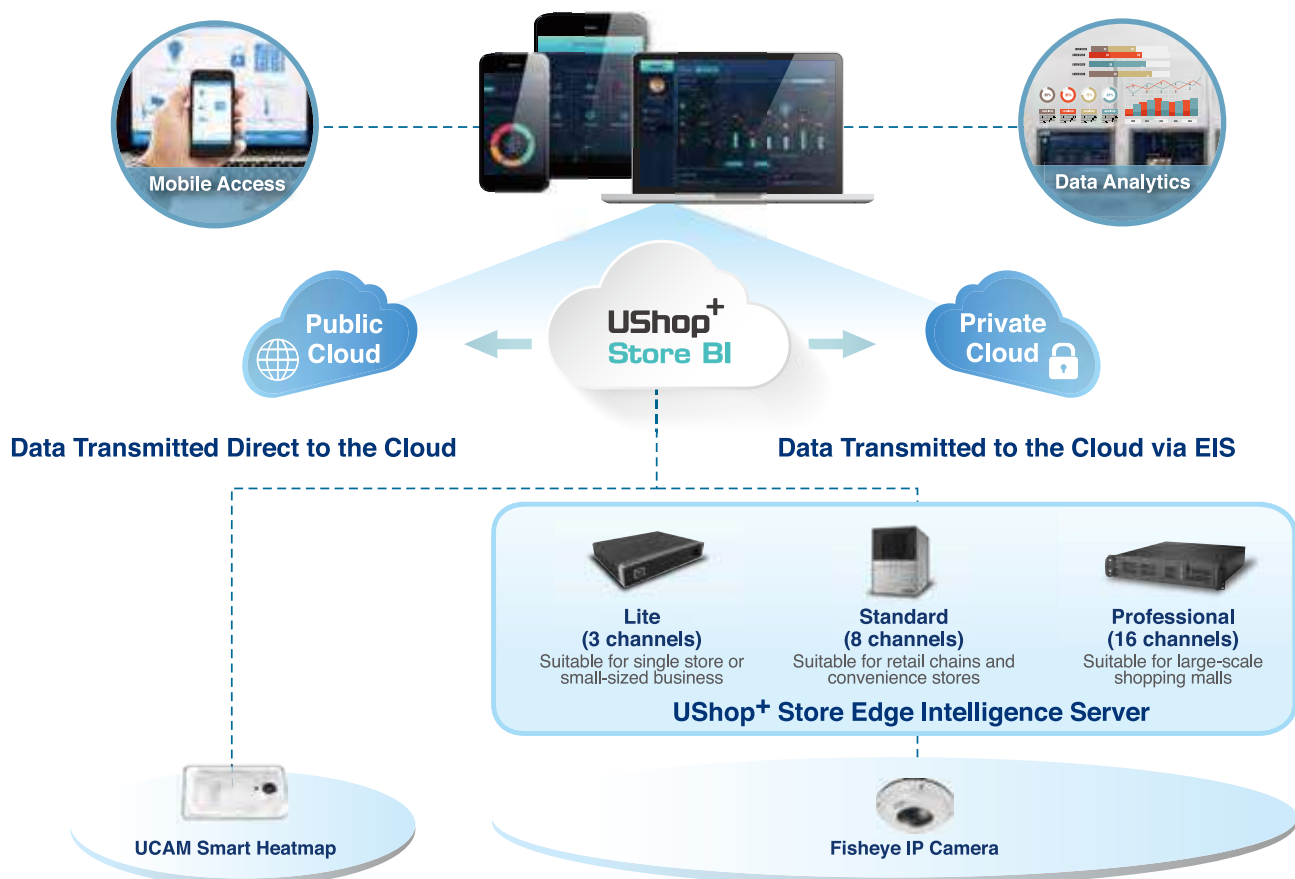

Detailed Zone Analysis

Easy Mobile Management

## SYSTEM ARCHITECTURE

# POS Loss Prevention

In the retail and food and beverage industries, net profit margins are typically lower than that of other industries. Additionally, such businesses also face disproportionate “losses” due to theft, fraud, vandalism, waste, abuse, or misconduct during daily operations. Advantech’s loss prevention solution provides data analytics of video content collected at the point-of-sale and throughout the facilities to provide actionable business information. The loss prevention analytics feature allows business owners to review the analysis results on a dashboard and receive timely mobile notifications of abnormalities to further reduce preventable losses and optimize operations.

## UShop SRP-800

### USER BENEFITS

Payment Transaction Recording and Monitoring

Pre-Defined Criteria for Abnormal POS Transactions

Analysis of Business Intelligence

Reports Delivered to Mobile Devices

## SOFTWARE FEATURES

### Ushop+ Store SENSE

#### Store Management Software for Improving Operational Efficiency

Ushop+ Store SENSE software is designed to facilitate management of devices, sensors, and staff. Integrated with POS transaction data, IP cameras, and surveillance network video cameras, Ushop+ Store SENSE allows retailers to check video records and submit POS investigation reports through a centralized management system. Managers can then review abnormal transaction behaviors and compile audit reports via a Web portal.

Instant Notifications of Abnormal Operations

Quick Query and Analysis of Abnormal Transactions

Key Business Metrics, Reports, and Dashboards

## SYSTEM ARCHITECTURE

# Application Stories

## Subway Bangkok

Mr. Vichit, a Thai businessman, successfully established 16 Subway® franchise stores in Thailand. Advantech's Intelligent eMenu Board solution was adopted at each of Mr. Vichit's Subway® franchise stores. Using this solution, Mr. Vichit can easily edit and update the menu content remotely. The menu displays can also be configured to present special lunch/dinner promotions and offers based on the time of day.

## Carrefour Taiwan

At Carrefour Taiwan, store managers faced problems with staff shortages during peak hours (and idle part-time staff during low-traffic periods). To address this issue, Carrefour deployed Advantech's UShop+ store traffic analytics solution with integrated UCAM 2D person counting cameras at various branch stores in Taiwan. UShop+ software can be used to output daily, weekly, monthly, and annual business intelligence reports that help store managers identify peak/off-peak hours and optimize overall operations. Advantech's customer satisfaction survey solution was also installed in over 100 branch stores in order to enhance customer service.

## 85 °C Bakery

To ensure unified and centralized management from headquarters, 85°C Bakery café deployed Advantech's POS Loss Prevention Solution for monitoring cashier transactions, and displaying abnormal transaction events on the back-end dashboard in real-time. Visual data BI reports were then output for store management to study. Since the deployment of Advantech's UShop+ Loss Prevention Solution, the number of in-store transaction abnormalities as well as cashier errors has greatly declined.

## Consumer Electronics Chain

Mr. Lai, owner of the E-Company consumer electronics chain, previously assessed the performance of each chain store based on the daily sales volume. However, after implementing Advantech's store traffic and heatmap solution at his 20 stores, the store managers were able to check the store performance metrics, including the number of visitors, transaction amount, conversion rate, sales per man-hour, as well as average sales per unit area (sales revenue/total square meters of a store), using the UShop+ mobile management app.

# UTC-200 Series

UTC-210/215/220/232/242

## True-Flat, Fanless, Open Frame Panel PC

- Built-in Intel® Core™ i5-6300U processor
- 10.1/15.6/21.5/31.5/42.5" monitor with 16:9 widescreen display
- Fanless, low-power system
- 1920 x 1080 Full HD resolution
- Glass or P-CAP/resistive touchscreen
- Supports Advantech WISE-PaaS/RMM remote management software

### Key Features

True-flat, slim design for easy integration

IP65-rated front panel for water and dust resistance

Single-unit solution for easy integration with kiosks and cabinets

# UTC-300 Series

UTC-315/318/320

## Stylish, Lightweight, All-in-One Touch Computer

- Built-in Intel® Celeron® J1900/Core™ i5-4300U/6300U processor
- 11.6/15.6/18.5/21.5" monitor with 16:9 widescreen display
- Fanless, low-power system
- 1920 x 1080 Full HD resolution
- Wide input voltage (12 ~ 30 V)
- Supports Advantech WISE-PaaS/RMM remote management software

### Key Features

IP65-rated front panel for water and dust resistance

Detachable frame for flexible installation

Various peripherals for diverse applications

# UTC-500 Series

Rugged, Expandable, All-in-One Touch Computers

## 10" ~ 42", Compact, Slim, All-in-One PCs with 16:9 LCD

The compact, slim design and stunning 16:9 widescreen display provide a sleek and stylish appearance, while the wide range of screen sizes ensures installation flexibility.

## Excellent Performance with Low Power Consumption

Equipped with an Intel® processor that supports high-performance computing, the UTC-500 fanless system offers quiet and power-efficient operation.

## Rugged and Durable Touchscreen

The inclusion of an IP65-rated front panel with antimicrobial glass touchscreen\* provides a durable front surface with protection from water and dust ingress.

\* Antimicrobial glass touchscreens are only available with UTC-515 and UTC-520 PCAP.

## Comprehensive Support for Diverse Applications

Supports multiple OS, various I/O ports, and diverse peripheral options that extend the system functionalities for a wide range of applications.

# UTC-515/520/532

## All-in-One Touch Computer in a Variety of Sizes

- 15.6/21.5/31.5" monitor with 16:9 widescreen display
- Built-in Intel® Celeron® J1900/Intel® Core™ i5-4300U/6300U/Pentium® N4200 processor
- Fanless, low-power system
- Supports both landscape and portrait screen orientations
- Supports Advantech WISE-PaaS/RMM remote management software

### Key Features

IP65-rated front panel for water and dust resistance

Side groove design for flexible peripheral installation

Rich peripherals for diverse applications

# UTC-510

## Slim, Versatile, All-in-One Touch Computer with PoE Support

- 10.1" monitor with 16:10 widescreen display
- Built-in Intel® Atom™ E3825/Celeron® N2807/J1900/N3350/Pentium® N4200 processor
- Fanless, low-power system
- Removable frame and customizable frame color
- Supports Advantech WISE-PaaS/RMM remote management software

### Key Features

IP65-rated front panel for water and dust resistance

PoE support (for UTC-510-PoE)

Various peripherals for system expansion

# UTC-542

## 42.5", Slim, All-in-One Touch Computer for Interactive Signage

- 42.5" monitor with 16:9 widescreen display
- Built-in Intel® Celeron® J1900/Intel® Core™ i5-6300U/Pentium® N4200 processor
- Fanless, low-power system
- IP65-rated front panel
- Supports both landscape and portrait screen orientations
- Various I/O and peripherals for diverse applications
- Supports Advantech WISE-PaaS/RMM remote management software
- Dual hot-swappable HDD/SSD slots with RAID 0/1 support

Supports mirror coating (mirrored glass/P-CAP touchscreen)

Swappable dual HDD/SSD slots for easy updates

# All-in-One Self-Service Kiosks

Advantech's UTC series of all-in-one kiosks are stylish, full-function, fanless, industrial-grade, self-service kiosks. Equipped with the latest Intel® processor, UTC series kiosks provide excellent and stable performance. Built to support various self-service applications, the UTC series all-in-one kiosks are available with various screen sizes, can be integrated with diverse peripherals, and support flexible integration for easy installation. These kiosks enable business owners to deliver unified interactive services that increase customer satisfaction.

## Scenarios and Applications

Restaurant Self-Order Kiosks

Hotel Self-Check-In Kiosks

Cinema Self-Ticketing Kiosks

Bank Self-Service Kiosks

Retail Product Information Kiosks

Public Information Kiosks

# UTC-720 Series

UTC-722/723

## *Slim, Single-Unit, Open Frame Self-Service Kiosks*

- Built-in Intel® Core™ i5-6300U processor
- 21.5 and 31.5" FHD LCD (1920 x 1080)
- IP65-rated front panel for water and dust resistance
- Glass or P-CAP/resistive touchscreen
- Supports Wi-Fi/Bluetooth connectivity
- Supports Advantech WISE-PaaS/RMM remote management software

### Key Features

Side-open design for convenient maintenance

Customizable color to fit various business environments

Supports pole, ceiling, and wall mounting for easy installation

# UTC-750 Series

UTC-752

## *Convertible, Multi-Type, All-in-One Self-Service Kiosks*

- Built-in Intel® Core™ i5-6300U processor
- 21.5" FHD LCD (1920 x 1080)
- IP65-rated front panel for water and dust resistance
- Supports IDTech payment modules
- Supports Wi-Fi/Bluetooth connectivity
- Supports Advantech WISE-PaaS/RMM remote management software

- (A) Thermal printer (2 7/8")
- (B) NFC reader
- (C) Pin pad
- (D) 1D/2D Barcode Scanner
- (E) MSR/IC Card Reader

### Key Features

Supports a secondary monitor for multimedia displays

Integrated payment facility with LED light for convenient use

Flexible installation with multiple stand types

# Mobile Tablet Systems

To meet the demands of various industries, Advantech's rugged yet lightweight mobile tablets support long-duration operation and can be easily expanded with the integration of various extension modules. IP65-rated for resistance to water and dust ingress, these tablets offer the capabilities to enhance the customer shopping experience, streamline operations, and increase productivity.

## Scenarios and Applications

Restaurant Checkout Tablets

Device Management Tablets

Store Assistant Tablets

Field Service Tablets

Self-Service Terminals

Inventory Management Systems

# AIM-35/38

## 8"/10" Industrial-Grade Mobile Tablet

- Built-in Intel® Atom™ processor with dual OS (Windows/Android)
- IP65 rating for resistance to water and dust ingress
- Supports various expansion peripherals for diverse applications
- Supports real-time data transmissions via 4G LTE, Wi-Fi, and Bluetooth

### Key Features

Touchscreen supports gloved operation

Supports EMV-certified payment modules

Supports diverse modular peripherals

# AIM-37

## 10" Industrial-Grade Mobile Tablet

- Built-in Intel® Atom™ x5-Z8350 processor
- Corning® Gorilla® glass panel offers an MTBF of up to 12,000 hours
- IP54 rating for resistance to water and dust ingress
- Embedded MSR, IC card reader, and NFC reader provide multiple payment options
- Supports Advantech WISE-PaaS/RMM remote management software

### Key Features

Directly bonded touchscreen for enhanced visibility

Built-in MSR and 1D/2D barcode scanner

Supports Android and Windows OS

# Mobile POS Systems

Aimed at the retail and hospitality industries, Advantech's rugged yet slim and lightweight mobile POS systems offer high expandability for diverse applications, such as self-ordering or shopping assistance operations, to enhance the customer shopping experience, streamline operations, and increase overall productivity.

## Scenarios and Applications

Mini POS Systems

Self-Check-in Kiosks

Self-Payment Kiosks

# Intelligent POS Systems

Advantech's POS systems offer stylish solutions that can be equipped with various modular peripherals and integrated with remote management software and cloud-based digital signage to support the provision of diverse value-added services that enhance customers' shopping experience. These systems also enable store managers to collect consumer behavior data for subsequent analysis and operational optimization.

## Scenarios and Applications

Intelligent POS Systems

Information Checking Systems

Self-Checkout Terminals

Restaurant Queuing Terminals

Kitchen Display Systems

O2O Terminals

# UPOS-211

## Compact, All-in-One POS System with Dual-Hinge Stand

- Innovative dual-hinge stand with up to 90-degree tilt flexibility
- Customizable design for enhanced brand promotion
- Expandable I/O interface for diverse applications
- Supports Advantech WISE-PaaS/RMM remote management software

### Key Features

Dual-hinge design

Supports secondary displays

Easy-access USB port

# UPOS-211 AVALO

## 15" All-in-One Extendable POS System

- Slim, fanless yet powerful POS system
- Modularized stand design enables flexible configuration
- Expandable I/O for diverse applications
- Supports Advantech WISE-PaaS/RMM remote management software

### Key Features

Highly adjustable secondary display for convenient use

Supports secondary displays (7" ~ 15") for advertisement purposes

Modularized stand design for flexible configuration

# UPOS-510

## High-Performance Modularized POS System

- Fanless Intel® processor for high-performance computing
- Stylish modularized design ensures easy maintenance
- Highly expandable I/O and superior data storage
- Supports Advantech WISE-PaaS/RMM remote management software

### Key Features

Modularized display design for various applications

Supports various secondary displays (when integrated with AIM-37)

Expandable I/O interface and RAID support

# UTC-300P

## 16:9 Widescreen Fanless POS System

- 15.6"/18.5" fanless POS system with 16:9 widescreen display
- Built-in Intel® Celeron® / Core™ i5 processor
- IP65-rated front panel for resistance to water and dust ingress
- Supports Advantech WISE-PaaS/RMM remote management software

### Key Features

Foldable stand with dual hinge

Unique mount frame attachment supports peripheral integration

Cost-effective and low-power design

# Industrial-Grade Box PCs

Advantech has developed high-performance, fanless, low-power, industrial-grade box PCs that can be integrated with remote management software and cloud-based digital signage systems to support various retail and hospitality applications, such as point-of-sale, digital signage, and store management operations. These devices not only allow customer behavior data to be collected, but also facilitate improved service efficiency.

## Scenarios and Applications

Intelligent POS Systems

Digital Signage Players

Self-Service Kiosks

Mini Server Boxes

Kitchen Display Systems

# USM-112

ARM®

## Mini Digital Signage Player with RISC Platform

- Built-in ARM® Cortex®-A17 processor
- Supports diverse mount options for easy installation
- Dual displays at Full HD (up to 4K) resolution
- Supports Advantech WISE-PaaS/SignageCMS digital signage content management software

### Key Features

Supports Android OS

Dual HDMI for digital signage applications

Various I/O for digital signage applications

# UBX-310

## Intelligent, Fanless POS Box System

- Fanless Intel® Celeron® J1900 / Core™ i5 processor
- Compact and slim design offers installation space savings
- Integrated with Advantech WISE-PaaS/SignageCMS digital signage software
- Supports Advantech WISE-PaaS/RMM remote management software

### Key Features

Slim and lightweight

Multiple I/O ports

Front-facing USB for easy maintenance

# UPOS-540

## Fanless POS Box System with Aluminum Housing

- Fanless, low-power design for high-performance computing
- Unique aluminum housing enhances heat dissipation
- Expandable I/O for diverse application demands
- Supports Advantech WISE-PaaS/RMM remote management software

### Key Features

Supports diverse peripherals

Aluminum housing for superior heat dissipation

Supports 12/24 V power USB

# UPOS-M15

## 15" Bezel-Free Touch Monitor

- IP65-rated front panel for protection from water and dust ingress

- Supports 5-wire resistive/P-CAP touchscreen

- Can be combined with a box PC to serve as POS terminal

UPOS-510 can be integrated to serve as a secondary display

Supports 0 ~ 150 degree rotation

Foldable stand design
