Introduction

The Advantech Quartz industrial camera series have between 0.3-15 mega pixel CCD/CMOS and include ultra-fast speeds and a high level of technology in a very small form factor. With the Quartz series, you can choose to use many of the most popular data interfaces in the machine vision market. The popular Gigabit Ethernet interface comes with a 100 meter cable length, and PoE (Power over Ethernet) to provide camera power and data via a single cable, and also offer separate input/output ports for triggering or flash control.
